RISK FACTORS

All investments in securities involve a degree of risk. The financial performance of Marginalen and the risks associated with Marginalen's business are important when making a decision on whether to invest in the Notes. A number of factors influence and could influence Marginalen's operations and financial performance and ultimately the Issuer's ability to make payments under the Notes. In this section, a number of risk factors are illustrated and discussed; risks pertaining to Marginalen's operations, regulatory risks and risks related to the Notes as subordinated financial instruments. The risk factors below are not ranked in any specific order of importance and no claim is being made that the list is exhaustive.

Potential investors should carefully consider the risk factors below, the Terms and Conditions, all other information in the investor documents and other available information before deciding on making an investment in the Notes. Investors must, in addition, alone or together with financial and/or other advisers, consider the general business prospects, and general information about the relevant market and companies active on that market, based on their personal circumstances. An investor should possess sufficient knowledge to assess the risk factors and sufficient financial strength to bear those risks.

Additional risk factors that are not currently known or not currently considered to be material may affect Marginalen's business, financial condition and results of operations and consequently the Issuer's ability to meet its obligations under the Notes.

Risks related to the Issuer

Risk Management

Operating within the banking sector and offering financial products and services involve taking calculated risks. The risks related to these products and services are taken deliberately and shall be reflected in, and covered by, the prices offered to the customers. Significant risks that Marginalen is exposed to are, amongst other things, credit and counterparty risk, market risk, strategic risk, risks relating to disruptions in the global credit markets and economy, liquidity risk, operational risk, regulatory risk and competition and business risks (see below). Whilst the Issuer believes that it has implemented appropriate systems and controls to mitigate such risks, investors should be aware that the failure to control such risks could have a negative impact on the performance and reputation of the business.

Credit and counterparty risk

Credit risk and counterparty risk are the risks of failure by any customer or counterparty to honour its payment obligations to Marginalen. Credit risk is primarily attributable to lending/financing to customers, while counterparty risk means the risk that a counterparty to Marginalen in a transaction, e.g. a transaction involving a derivative instrument, could default before the final settlement of the transaction's cash flows.

Adverse changes in the credit quality of Marginalen's customers or other counterparties could affect the recovery and value of Marginalen's assets and require an increase in provisions made for bad and doubtful debts and other provisions and could consequently adversely affect the Issuer's earnings and financial position.

Credit risk on group companies and other parties

The Issuer has granted credits to its parent company Marginalen AB with the main purpose of financing investments and business developments of Marginalen AB's Baltic subsidiaries, which are included in the Issuer's consolidated situation. These credits represent approximately 10 per cent. of the Issuer's aggregate credit exposure. The Issuer has also granted credits (representing less than 2 per cent. of the aggregated credit exposure) to other parties ultimately controlled by its ultimate owner.

In addition, the Issuer has injected equity in and granted credits to its Subsidiaries. If any Subsidiary of the Issuer is subject to any foreclosure, liquidation, administrative or other bankruptcy or insolvency proceeding, the creditors of such subsidiary, will generally be prioritised due to their position in the capital structure and will generally be entitled to payment from the sale or other disposal of the assets of such subsidiary before the Issuer will be entitled to receive any distributions from such a subsidiary.

Adverse changes in the credit quality or liquidity position of the relevant creditors could affect the recovery and value of the Issuer's assets and could consequently adversely affect the Issuer's earnings and financial position.

Market risk

Market risk is the risk of loss resulting from changes in interest and foreign exchange rates and equity prices or other market related instruments. Although Marginalen's risk of loss of nominal invested capital is limited, since Marginalen does not conduct proprietary trading and investments are almost exclusively in low risk fixed income instruments, and since Marginalen limits its exposure to interest rate and currency rate fluctuations by the use of derivative instruments, such risks will always form an inherent part of Marginalen's business. Fluctuations in the debt, foreign exchange or equity markets may affect the market value and liquidity of Marginalen's assets. In addition, the occurrence of such events may have an adverse impact on the revenue generated from Marginalen's primary activities.

Interest rate risk is the risk that Marginalen's current and future net interest deteriorates due to an unfavourable change in the market. Interest rate risk arises when the interest rates cannot be changed simultaneously on the funding and lending sides. A deterioration of Marginalen's net interest due to an unfavourable change in the market could have a material adverse effect on the Issuer's financial position and results of operations.

Currency risk is the risk that Marginalen will suffer losses due to adverse currency movements. Foreign exchange rate risk also involves the risk that the estimated fair value of, or future cash flows from, a financial instrument fluctuate because of changes in foreign exchange rates. Marginalen is exposed to foreign exchange rate risk mainly from Euro (EUR) but also from U.S. dollar (USD), Norwegian Krone (NOK) and Danish Krone (DKK). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations. This means that Marginalen is exposed to exchange differences. Adverse exchange rate movements could have a material adverse effect on the Issuer's financial position and results of operations.

Liquidity and funding risk

Liquidity risk is the risk of Marginalen being unable to fulfil its commitments or only being able to fulfil its commitments by borrowing cash and cash equivalents at a significantly higher cost, due to insufficient cash and cash equivalents currently held. This risk is at hand, for example, when bonds and other debt obligations issued by Marginalen reach their maturity date and become due for repayment.

The Issuer is almost entirely funded through deposits from the public in Sweden in Swedish kronor and is currently not dependent on any international financing. The risks in the supply of liquidity consist primarily of the risk of the Issuer not attracting sufficient volume of deposits. The risk may arise in a situation where net withdrawals are larger than desired or when increased deposit volumes are desired in order to finance further lending and other payments. Increased net withdrawals may result from price competition or negative rumours about the Issuer, other banks or the financial system in general. A failure by the Issuer to attract a sufficient volume of deposits or to improve the liquidity situation through asset sales could have a material adverse effect on the Issuer's operations.

Strategic risk

Strategic risk is the risk of loss of current revenue streams or missed future revenue opportunities because of changing market conditions through economic downturns, increased competition, changes in business laws/regulations or other external factors that negatively affect Marginalen's business model. Strategic risk also includes the risk that third parties adversely affect Marginalen's brand. Macroeconomic developments in the business environment are affected by various events and scenarios. The realisation of any of the aforementioned risks could adversely affect the Issuer's financial position and results of operations.

Marginalen has a number of competitors across different segments and markets. It is possible that these competitors will grow to be stronger in the future, for example by means of consolidation in the market. Thus, there is a risk that Marginalen will not be able to compete successfully against current as well as future competitors, which may have a negative effect on the Issuer's operations, earnings and financial position.

Dependency on loan brokers

A considerable part of Marginalen's new customers are currently directed to it from external third party sources, primarily loan brokers or providers of interest rate comparison services. Marginalen's agreements with the loan brokers may in most cases be terminated on short notice. Should such external parties, for any reason, cease to cooperate with Marginalen, it could substantially affect the inflow of new customers to Marginalen resulting in a material adverse effect on the Issuer's financial position and results of operations.

Agreements with credit card providers

Marginalen is dependent on certain agreements entered into with the credit card providers VISA and MasterCard. Upon failure of Marginalen to comply with the relevant rules of the agreements entered into with VISA and MasterCard, respectively, the agreements may be terminated. Should VISA or MasterCard, jointly or separately, for any reason, cease to cooperate with Marginalen, it could adversely affect the Issuer's financial position and results of operations.

Operational risks

Operational risk arises from human errors and system faults, insufficient or defective internal procedures or external events. Operational risk also includes risk pertaining to reputation and strategy as well as legal risk. Although identification, management and control of operational risks are clear and integrated parts of Marginalen's business, deficiencies or errors in internal processes and control routines, human errors, or external events that affect operations may occur. This could result in a material adverse effect on the Issuer's financial position, business, products and services it offers or its assets.

Information technology risk

Marginalen depends on the success of its business continuity planning, the uninterrupted and efficient operation of its information and communications systems, including its information technology (to manage critical business processes, including the running of its internet bank, as well as administrative functions), Marginalen's monitoring and protective measures and the successful development and implementation of new systems. However, as is the case for information technology systems generally, losses could result from inadequate or failed internal control processes and protection systems, human error, fraud or external events that interrupt normal business operations. This could result in a loss of data and a failure to provide quality service to customers.

If any of the above risks materialise, the interruption or failure of Marginalen's information technology and other systems could impair Marginalen's ability to provide its services effectively causing direct financial loss and may compromise Marginalen's strategic initiatives. Technology failure or underperformance could also increase Marginalen's litigation and regulatory exposure or require it to incur higher administrative costs (including remediation costs). Further, an irrecoverable loss of any customer database would be expensive and time-consuming to endeavour to retrieve or recreate and would have a material adverse effect on the Issuer's operations and financial situation.

Extensive downtime of network servers, attacks by IT-viruses or other disruptions or failure of information technology systems are possible and could disrupt Marginalen's business, result in transaction errors, the disclosure of confidential information and/or create significant financial and/or legal exposure which may, in turn, damage Marginalen's brand and reputation. Such an event could, for instance, be impacted by the new EU General Data Protection Regulation 2016/679/EU ("**GDPR**") and have a material adverse effect on the Issuer's operations and financial situation (please also refer to the risk factor "*EU General Data Protection Regulation*" below for more information about GDPR and Marginalen's risks related to GDPR).

Ownership

The Issuer is currently controlled by one principal shareholder, whose interests may conflict with the Noteholders', particularly if the Issuer encounters difficulties or is unable to pay its debts as they fall due. The owner has the power to control all matters to be decided by vote at a shareholders' meeting and has the ability to appoint the board of directors of the Issuer. Furthermore, the owner may also have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in its judgment, could enhance its equity investments, although such transactions might involve risks to the Noteholders. There is nothing in the Terms and Conditions that prevents the owner or any of its affiliates from acquiring businesses that directly compete with the Issuer. If such event were to arise this may adversely affect the Issuer's operations, financial position and results.

Key personnel

Marginalen is dependent upon a number of key employees whom have together developed the day-to-day operations and systems within Marginalen. Should such key personnel leave Marginalen in the future or take up employment with a competing business, and not be adequately replaced with new qualified personnel, it could have a negative effect on the Issuer's operations, earnings and financial position.

Reliance on third parties

Some of Marginalen's business systems are dependent on third party software and infrastructure.

While alternative business outsourcing and other partners are available, it can be difficult for Marginalen to replace these relationships on commercially reasonable terms and seeking alternate relationships could be time consuming and result in interruptions to Marginalen's business. Marginalen's use of business outsourcing partners also exposes Marginalen to reputational risks. The failure of Marginalen's third party providers to perform their services to Marginalen's standards and any deterioration in or loss of any key relationships can have a material adverse effect on the Issuer's business, financial condition and results of operations.

Furthermore, Marginalen's business outsourcing partners and other third parties could fail to comply with applicable laws and regulations, such as data protection requirements, or fail to otherwise provide their agreed services to Marginalen. To the extent these third parties violate laws, other regulatory requirements or their contractual obligations to Marginalen, or otherwise act inappropriately in the conduct of their business, Marginalen's business and reputation can be negatively affected or penalties could be directly imposed on Marginalen. Furthermore, there is a risk that Marginalen's methods and procedures for overseeing how outsourcing partners and other third parties operate their businesses may not detect the occurrence of any violations for a substantial period of time, which could exacerbate the effect of such violations. Any of the above can have a material adverse effect on the Issuer's business, financial condition and results of operations.

Risks relating to inadequate insurance

Inability by Marginalen to maintain adequate insurance policies could have a material adverse effect on the Issuer's financial conditions and results of its operations.

Taxes and charges

Marginalen conducts its business in accordance with its interpretation of applicable tax regulations and applicable laws, tax treaties, regulations, case law and requirements of the tax authorities. There can be no assurances that its interpretation of applicable laws, tax treaties, regulations, case law or other rules or administrative practice is correct, or that such rules or practice will not change, possibly with retroactive effect. Marginalen's tax situation both for previous, current and future years may change as a result of legislative changes, decisions made by the tax authorities or as a result of changed tax treaties, regulations, case law or requirements of the tax authorities. Such decisions or changes, potentially with retroactive effect, could adversely affect the Issuer's business, financial condition and results of operations.

Reputational risk

Marginalen relies, among other things, on its brand to maintain and attract new customers and employees. Any negative publicity or announcement relating to Marginalen may, whether or not it is justifiable, deteriorate the brand value and have a negative effect on the inflow of deposits, net sales, earnings and financial position.

Legal disputes

Claims or legal action may in the future be raised against Marginalen which may have significant unfavourable effects on Marginalen's financial position, performance, market position, or pricing of the Notes. The risk of claims or legal action also relates to intellectual property rights, such as patents and trademarks, and Marginalen normally assumes liability for any infringement of third party intellectual property rights in relation to its customers.

Risks relating to disruptions in the global credit markets and economy

Financial markets are subject to periods of volatility which may impact Marginalen's ability to raise debt in a similar manner, and at a similar cost, to the funding raised in the past. Changes in investment markets, including changes in interest rates, exchange rates and returns from equity, property and other investments, may affect the financial performance of the Issuer. In addition, the financial performance of the Issuer could be adversely affected by a worsening of general economic conditions in the markets in which it operates, for example, as a result of the United Kingdom leaving the European Union (the "EU") in 2019.

Regulatory risks

General compliance risk

The Issuer is supervised by the Swedish FSA, and is subject to minimum statutory capital and liquidity levels. Non-compliance with these requirements may result in administrative actions or sanctions against the Issuer, which may affect the Issuer's ability to fulfil its obligations under the Notes.

Should the Swedish FSA consider that the operations of the Issuer are not sound or that the Issuer is otherwise in breach of laws or regulations that apply to it, its articles of association or internal governing documents that are based on laws and regulations governing the Issuer's operations as a bank, the Swedish FSA must intervene. The Swedish FSA may then issue an order to limit or reduce the risks of the operations in some respect, restrict or prohibit payment of dividends or interest or take other measures to rectify the situation, issue injunctions or remarks. In case of material violations, the Swedish FSA can, as an ultimate measure, revoke the Issuer's banking licence, following which the Swedish FSA may determine the manner in which the business will be wound up. A decision regarding revocation of licence can be combined with an injunction against continuing the operations. If deemed sufficient, taking into consideration, among other things, the nature, gravity, duration and potential effects on the financial system of the violation, the Swedish FSA can, instead of revoking the Issuer's banking licence, issue a warning. Remarks and warnings may be combined with monetary fines (up to ten per cent. of the annual turnover or two times the cost avoided or profit realized from the violation, where such amount can be ascertained). If the Issuer were subject to material sanctions, remarks or warnings and/or fines imposed by the Swedish FSA, this would cause significant, and potentially irreparable, damage to the reputation of the Issuer and, as a result, the Issuer's business, financial position and results of operations can be materially adversely affected. The Issuer's operations are contingent upon the banking licence issued by the Swedish FSA. The loss or suspension of the licence will require the Issuer to cease its banking operations which could have a material adverse effect on the Issuer's business, financial condition and results of operations.

Many initiatives for regulatory changes have been taken in the past and the impact of such initiatives is, to some extent, difficult to predict in full. Therefore, for example, financial services laws, capital, liquidity and solvency laws, marketing laws, consumer protection laws, data protection laws, laws related to deposits (including the Swedish deposit insurance scheme), the laws related to enforcement, laws and regulations related to or affecting interest, laws and regulations on internal governance and control, laws and regulations of remuneration, codes of conduct, government policies and general recommendations, and their respective interpretations currently affecting the Issuer can change, and the Issuer is unable to predict what regulatory changes can be imposed in the future as a result of regulatory initiatives in the EU, by the Swedish FSA, the European Banking Authority or by other authorities and agencies. Such changes can have a material adverse effect on the Issuer's profitability, solvency and capital requirements, and can give rise to increased costs of compliance. Failure of the Issuer to effectively manage these legal and regulatory risk can have a material adverse effect on the Issuer's business, financial conditions and results of operations.

Capital requirements

Marginalen is subject to capital adequacy regulations, which aim to put in place a comprehensive and risk-sensitive legal framework and to ensure enhanced risk management among financial institutions. Recent regulations which have impacted Marginalen and are expected to continue to impact Marginalen include, among others, the Basel III framework, the EU Capital Requirements Directive 2013/36/EU ("**CRD IV**") and the EU Capital Requirements Regulation (EU) No. 575/2013 ("**CRR**").

The Issuer must at all times meet the capital requirements and CRD IV and CRR have imposed significant changes for financial institutions in terms of minimum capital requirements and capital buffers. CRR and CRD IV are both supported by a set of binding technical standards developed by the European Banking Authority (the "**EBA**"). The regulatory framework will continue to evolve and any changes could have a material impact on the Issuer's business.

The Issuer has a permission from the Swedish FSA to assign a risk weight of 0 per cent. for exposures, with the exception of exposures giving rise to Common Equity Tier 1, Additional Tier 1 or Tier 2 items, to Marginalen AB, ESCO Marginalen AB and Sergel Finans AB if the following conditions are fulfilled:

- (a) the counterparty is included in the same consolidation as the Issuer on a full basis;
- (b) the counterparty is subject to the same risk evaluation, measurement and control procedures as the Issuer; and
- (c) there is no current or foreseen material practical or legal impediment to the prompt transfer of own funds or repayment of liabilities from the counterparty to the Issuer.

The current permission expires at the end of year 2020, at which time the Issuer intends to apply to have the exemption renewed. If the exemption for any reason is not renewed and any such exposures are outstanding, the capital requirements for the Issuer (but not for the Issuer consolidated situation) will increase and the Issuer may have to allocate capital to these exposures.

In December 2017, the Basel Committee published complements to the Basel III Framework in order to complete it. The complements, often called Basel IV, entail substantial changes and are proposed to enter into force 1 January 2022 with a phasing-in period of five years. The proposed changes need to be implemented at EU level in order for them to become applicable for Sweden. In May 2018, the Council published a compromise proposal concerning a draft Regulation amending the CRR. The proposal entails substantial changes but is subject to further review by the European Parliament.

In March 2018, the European Commission proposed to amend CRR regarding minimum loss coverage for non-performing exposures. The proposal provides for a statutory prudential backstop against any excessive future build-up of non-performing loans (“NPL”) without sufficient loss coverage on banks’ balance sheets. According to the proposal, banks will be required to put aside sufficient resources when new loans become non-performing, creating appropriate incentives to address NPLs at an early stage and avoid too large accumulation of NPLs. The proposed statutory prudential backstop may cause reductions in the capital adequacy ratios and solvency levels of the Issuer.

In September 2018, the EBA, in its Single Rulebook Q&A, published an answer to a question regarding appropriate risk weight for purchased defaulted assets. In its answer EBA interprets the CRR in such a way that some purchased defaulted assets being assigned a risk weight of 150 per cent. instead of 100 per cent. As of 18 December 2018, the Swedish FSA confirmed that EBA’s interpretation will be applied in Sweden. This change in risk weight will cause reductions in the capital adequacy ratios of the Issuer and its consolidated situation. The Issuer and its consolidated situation have updated its business and capital planning to account for this change and to ascertain that no regulatory capital requirements will be breached.

The Swedish FSA has decided to amend its regulation in relation to countercyclical capital buffers (FFFS 2014:33) so that the countercyclical capital buffer will be increased to 2.5 per cent. on 19 September 2019. Such an increase and any other changes in the risk weighting of assets may cause reductions in the capital adequacy ratios and solvency levels of the Issuer and/or cause the applicable minimum capital requirements to increase.

The capital requirements mentioned above could force the Issuer to issue additional capital, which may be unavailable to the Issuer in the future or unavailable at an attractive rate or within the timeframe necessary in order to ensure compliance with such requirements. Furthermore, the conditions of the Issuer’s business as well as external conditions are constantly changing. Any failure by the Issuer to maintain any increased regulatory capital requirements or to comply with any other requirements introduced by regulators can result in intervention by regulators or the imposition of sanctions, which can have a material adverse effect on the Issuer’s profitability and results and can also have other effects on the Issuer’s financial performance and on the pricing of Notes, both with or without the intervention by regulators or the imposition of sanctions. Any market perception or concern regarding compliance with future capital adequacy requirements, can increase the Issuer’s borrowing costs and limit its access to capital markets, which can have a material adverse effect on the Issuer’s business, financial condition and results of operations.

The Recovery and Resolution Directive

To complement the CRR/CRD IV legislative package, the EU Directive 2014/59/EU, known as the Bank Recovery and Resolution Directive (“BRRD”), which provides various measure for the resolution of failing credit institutions, was adopted. The BRRD establishes a framework for the recovery and resolution of credit institutions and, *inter alia*, requires EU credit institutions to produce and maintain recovery plans setting out the arrangements that may be taken to restore the long-term viability of the institution in the event of a material deterioration of its financial position. National resolution authorities (the National Debt Office (*Riksgälden*) for Sweden), in consultation with competent authorities (the Swedish FSA for Sweden), is required to prepare resolution plans setting out how a firm might be resolved in an orderly fashion and its essential functions preserved, if it were to fail. This includes the potential application of the resolution tools and powers referred to below as well as options for ensuring the continuity of critical functions.

The BRRD has been implemented into Swedish law by the Resolutions Act (*lagen (2015:1016) om resolution*) and the Precautionary Support Act (*lagen (2015:1017) om förebyggande statligt stöd till kreditinstitut*) both of which entered into force on 1 February 2016. The National Debt Office has been appointed as resolution authority and has been given certain powers which can be categorised into preventive powers, early intervention

powers and resolution powers. Ultimately, the authority may take control of a failing firm and, for example, transfer the firm to a private purchaser or to a publicly controlled entity pending a private sector arrangement. All these actions can be taken without any prior shareholder approval.

The primary objective of the BRRD and the Resolutions Act is to maintain financial stability. All firms are covered by the regime and may thus potentially be subject to resolution actions, including the Issuer. A prerequisite for initiating resolution actions is, however, that it is deemed necessary and proportionate in order to achieve the resolution objectives, such as systemic stability concerns. The BRRD and the Resolutions Act also provide that shares and other tier 1 and tier 2 capital instruments may be written-down/converted independently of resolution and, accordingly, these actions may be taken even if the criteria for initiating resolution action are not satisfied.

The BRRD contains a number of resolution tools and powers intended to ensure that resolution authorities across the EU have a harmonised toolkit to manage firms' failure provided that the resolution conditions are satisfied. The National Debt Office will only be permitted to use resolution powers and tools in relation to a firm if it determines that all the conditions for resolution are satisfied. These conditions are (a) the determination (which in Sweden will be determined by the Swedish FSA) that the institution is failing or likely to fail (the “**failure condition**”); (b) there is no reasonable prospect that any solution, other than a resolution action taken in respect of the firm, would prevent the failure of the firm within a reasonable timeframe (the “**no alternative condition**”); and (c) intervention through resolution action is necessary in the public interest (the “**public interest condition**”).

The powers set out in the BRRD will impact how firms are managed as well as, in certain circumstances, the rights of creditors. Holders of debt instruments (such as the Notes) may be subject to write-down or conversion into equity on any application of the general bail-in tool and non-viability loss absorption, which may result in such holders losing some or all of their investment. The general bail-in tool can be used to recapitalise a firm that is failing or about to fail, allowing authorities to restructure it through the resolution process and restore its viability after reorganisation and restructuring. The write-down and conversion power can be used either together with, or also, independently of, a resolution action. Other powers provided to resolution authorities under the BRRD in respect of debt instruments (which could include the Notes) include replacing or substituting the firm as obligor in respect of such debt instruments; modifying the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), and/or discontinuing the admission to trading of debt instruments. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of the Noteholders, the price or value of Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

In order to ensure the effectiveness of bail-in and other resolution tools introduced by the BRRD, the BRRD requires that all in-scope firms have sufficient own funds and eligible liabilities available to absorb losses and contribute to recapitalisation if the bail-in tool were to be applied. Each firm must meet an individual minimum requirement for eligible liabilities (“**MREL**”) requirement, calculated as a percentage of total liabilities and own funds and set by the relevant resolution authorities (the National Debt Office for Sweden) on a case by case basis. The MREL requirement applies to all EU credit institutions (and certain investment firms), not just to those identified as being of a particular size or of systemic importance.

On 23 February 2017 and on 18 June 2018, the National Debt Office presented the finalised model for the calculation of MREL, stating that systemically important institutions need to replace a portion of their existing bond holdings with subordinated bonds. However, the National Debt Office announced on 20 December 2017 that the Issuer is not a systemically important institution. For institutions which are not so deemed, the MREL requirements will remain at the level of the institution's applicable capital requirements.

It is not possible to predict exactly how the powers and tools of the National Debt Office described in the BRRD and the Resolutions Act will affect the Issuer. Accordingly, it is not possible to assess the full impact of the BRRD and the Resolutions Act on the Issuer. The powers and tools given to the National Debt Office are numerous and may have a substantial effect on the Issuer.

EU General Data Protection Regulation

The GDPR entered into force on 24 May 2016 and applies from 25 May 2018. The main objectives of the GDPR are to harmonise EU laws on personal data and facilitate the flows of data across EU as well as to ensure that personal data enjoys a high standard of protection everywhere in the EU.

The GDPR includes new requirements for processing of personal data. This may create challenges for Marginalen, as it will need to ensure that its policies and procedures are compliant with the GDPR. Failure to

comply with the GDPR exposes the Issuer to substantial monetary fines which could have a material adverse effect on its business, financial condition and results of operation.

Payment services

Directive (EU) 2015/2366 of the European Parliament and of the Council of 25 November 2018 on payment services (“**PSD2**”) was adopted in November 2015 and implemented in Sweden on 1 May 2018. Amongst other things, PSD2 gives payment institutions a right to access credit institutions’ payment account services and payment systems. Consequently, third party providers will be given an increased access to the Issuer’s customers and this may result in new competitors on the market which may, in turn, affect the Issuer’s business, financial condition and results of operations negatively.

Anti-money laundering

The Issuer’s business is subject to a regulatory framework which requires the Issuer to take actions in order to counteract money laundering and terrorist financing. In order to comply with the framework, the Issuer has established procedures, internal control functions and guidelines to counteract money laundering and terrorist financing.

Failure to comply with the requirements could result in legal implications. If the Issuer would become subject to sanctions, remarks or warnings and/or fines imposed by the Swedish FSA, this could cause significant, and potentially irreparable, damage to the reputation of the Issuer and, as a result, the Issuer’s business, financial position and results of operations could be materially adversely affected.

Changes to the Swedish Deposit Insurance Scheme

The Swedish Deposit Insurance Scheme (“**SDIS**”) guarantees the depositors’ deposits in the event the Issuer is declared bankrupt or if the Swedish FSA determines that the SDIS should be activated in a given situation. The SDIS is administered by the Swedish National Debt Office. If activated, the insurance guarantees each customer compensation amounting to the value of the total funds in his or her account(s) with the Issuer, plus accrued interest, until the time of bankruptcy or the Swedish FSA’s activation decision. The maximum compensation is an amount of SEK 950,000. There is a risk that regulatory changes which decrease the maximum compensation amount or change the SDIS are implemented, which could have a negative effect on the amount of customer savings deposit currently held with the Issuer. This could have a negative effect on the Issuer’s liquidity, funding, business, financial condition and results of operations.

Changes in legislation and accounting standards

In addition to the anticipated legislative changes mentioned above, a number of legislations and regulations, taxes and rules can affect the business conducted by Marginalen. New or amended legislations and regulations could call for unexpected costs or impose restrictions on the development of the business operations or otherwise affect earnings, which could have an adverse effect on Marginalen’s business and results of business operations. The Subsidiaries which conduct activities relating to debt collection would be specially affected by changes in legislation relating to debt collection, debt restructuring and personal bankruptcy, *e.g.* the priority rights of creditors and periods of limitation (*preskription*).

From time to time, the International Accounting Standards Board (IASB), the EU and other regulatory bodies change the financial accounting and reporting standards that govern the preparation of Marginalen’s financial statements. These changes can be difficult to predict and can materially impact how Marginalen records and reports its results of operations and financial condition.

For instance, IFRS 16 (providing guidance on accounting for leases) was issued by the IASB on 13 January 2016 and will become effective for most companies that report under IFRS as of 1 January 2019. IFRS 16 eliminates the classification of leases as either operating leases or finance leases. Instead all leases are, for accounting purposes, treated in a similar way as finance leases applying IAS 17. Leases are “capitalised” by recognising the present value of the lease payments and showing them either as lease assets (right-of-use assets) or together with property, plant and equipment. If lease payments are made over time, a company also recognises a financial liability representing its obligation to make future lease payments. The most significant effect of the new requirements could be an increase in lease assets and financial liabilities. Accordingly, there could be a negative change to key financial metrics derived from the Issuer’s reported assets and liabilities.

Risks relating to the Notes

The Issuer's obligations under the Notes are subordinated

The rights of the Noteholders will, in the event of the liquidation (*likvidation*) or bankruptcy (*konkurs*) of the Issuer, be subordinated in right of payment to the claims of depositors and other unsubordinated creditors of the Issuer but shall rank at least *pari passu* with all other subordinated indebtedness of the Issuer (excluding creditors whose rights are expressed to rank in priority to the holders of the Notes).

Although the Notes may pay a higher rate of interest than comparable notes which are not subordinated, there is a significant risk that investors in the Notes will lose all or some of their investment should the Issuer become insolvent (insolvent), enter into liquidation (*likvidation*) or resolution.

The Terms and Conditions do not contain any right on the Noteholders or the Agent to accelerate the Notes

The Notes shall constitute tier 2 capital of the Issuer. As such, the Terms and Conditions do not include any obligations or undertakings binding on the Issuer which if breached would give rise to a right of the Noteholders or the Agent to accelerate the Notes.

The Issuer may redeem the Notes on the occurrence of a Capital Event or Tax Event

The Issuer may in certain circumstances, at its option, but in each case subject to obtaining the prior consent of the Swedish FSA, redeem the Notes upon the occurrence of a Capital Event or Tax Event at par together with accrued interest.

There is a risk that the Noteholders will not be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investments in the Notes.

Call options are subject to the prior consent of the Swedish FSA

The market risk with an investment in notes increases the longer the term is, since it is more difficult to overview how the market interest rates will develop with a longer term than a shorter term. The market risk also increases with a longer term since the fluctuation in the price of a note is greater for a note with a longer term than for a note with a shorter term.

The Issuer has the option to redeem the Notes five years after they have been issued on the First Call Date or on any Interest Payment Date falling after the First Call Date. If the Issuer considers it favourable to exercise such a call option, the Issuer must obtain the prior consent of the Swedish FSA.

The Noteholders have no rights to call for the redemption of the Notes and should not invest in the Notes with the expectation that such a call will be exercised by the Issuer. The Swedish FSA will base its evaluation of the regulatory capital position of the Issuer and certain other factors at the relevant time. There is a risk that the Swedish FSA will not permit such a call or that the Issuer will not exercise such a call. The Noteholders should be aware that they may be required to bear the financial risks of an investment in the Notes for a period of time in excess of the minimum period.

The Issuer is not prohibited from issuing further debt, which may rank *pari passu* or with priority to Notes

There is no restriction in the amount or type of debt that the Issuer may issue or incur that ranks, *pari passu* or with priority to Notes. The incurrance of any such debt may reduce the amount recoverable by Noteholders in the event of the voluntary or involuntary liquidation (*likvidation*), bankruptcy (*konkurs*) or resolution of the Issuer.

Notes obligations of the Issuer only

The Notes will be obligations solely of the Issuer and will not be the responsibility of, or guaranteed by, any other person, and no person other than the Issuer will accept any liability whatsoever in respect of any failure by the Issuer to pay any amount due under the Notes. Hence, investors in the Notes carry a credit risk relating to the Issuer. The investors' ability to receive payment under the Notes is therefore dependent on the Issuer's ability to meet its payment obligations, which in turn is largely dependent upon the performance of the Issuer's operations and its financial position. The Issuer's financial position is affected by several factors, some of which have been mentioned above.

Noteholder representation and majority decisions by the Noteholders

Under the Terms and Conditions, the Agent represents each Noteholder in all matters relating to the Notes. The Terms and Conditions contain provisions to the effect that a Noteholder is prohibited from taking actions on its own against the Issuer. To enable the Agent to represent the Noteholders in court, the Noteholders can submit a written power of attorney for legal proceedings. The failure of all Noteholders to submit such a power of attorney can negatively impact the enforcement options available to the Agent on behalf of the Noteholders. Further, under the Terms and Conditions the Agent has the right in some cases to make decisions and take measures that bind all Noteholders without first obtaining the prior consent of the Noteholders.

Additionally, under the Terms and Conditions certain majorities of Noteholders have the right to make decisions and take measures that bind all Noteholders, including those who vote in a manner contrary to the majority. Therefore, the actions of the majority and the Agent in such matters can impact the Noteholders' rights under the finance documents in a manner that can be undesirable for some of the Noteholders.

Credit risks

If the Issuer's financial position deteriorates it is likely that the credit risk associated with the Notes will increase as there would be an increased risk that the Issuer cannot fulfil its obligations under the Terms and Conditions. The Issuer's financial position is affected by numerous risk factors, some of which have been outlined above. An increased credit risk can result in the market pricing the Notes with a higher risk premium, which can adversely affect the value of the Notes. Another aspect of the credit risk is that a deteriorated financial position can result in a lower credit worthiness, which can affect the Issuer's ability to refinance the Notes and other existing debt, which in turn can adversely affect the Issuer's operations, result and financial position.

Liquidity risk

Active trading in the Notes does not always occur. Hence, there is a risk that a liquid market for trading in the Notes will not occur, or be maintained. This may result in the Noteholders being unable to sell their Notes when desired or at a price level which allows for a profit comparable to similar investments with an active and functioning secondary market. Lack of liquidity in the market may have a negative impact on the market value of the Notes.

It should also be noted that during a given time period it may be difficult or impossible to sell the Notes (at all or at reasonable terms) due to, for example, severe price fluctuations, a close-down of the relevant market or trade restrictions imposed on the market.

The market price of the Notes may be volatile

The market price of the Notes could be subject to significant fluctuations in response to actual or anticipated variations in the Issuer's operating results and those of its competitors, adverse business developments, changes to the regulatory environment in which the Issuer operates, changes in financial estimates by securities analysts and the actual or expected sale of a large number of Notes, as well as other factors. In addition, the global financial markets have experienced significant price and volume fluctuations in recent years, which, if repeated in the future, could adversely affect the market price of the Notes without regard to Marginalen's operating results, financial condition or prospects.

There has been no active trading market for the Notes

Although the Issuer shall use its best efforts to ensure that the Notes are listed on a Regulated Market, there can be no assurance that such application will be accepted or that the Notes will be so admitted. Prior to any admission to trading, there has been no public market for the Notes. There can be no assurance that an active trading market for the Notes will develop or, if developed, will be sustained. The Nominal Amount may not be indicative of the market price for the Notes. Furthermore, following a listing of the Notes, the liquidity and trading price of the Notes may be subject to fluctuations in response to many factors, including those referred to in this section, as well as to market fluctuations and general economic conditions that may adversely affect the liquidity and price of the Notes, regardless of the actual performance of the Issuer. In addition, transaction costs in any secondary market may be high. Therefore, Noteholders may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. Accordingly, the purchase of Notes is suitable only for investors who can bear the risks associated with a lack of liquidity in the Notes and the financial and other risks associated with an investment in the Notes. Investors must be prepared to hold the Notes until maturity.

MiFID II and MiFIR

The main parts of the European Council Directive 2014/65/EU on markets in financial instruments (MiFID II) and the Regulation (EU) No 600/2014 on markets in financial instruments (MiFIR) entered into force on 3 January 2018. These entail both a review of existing rules on the securities market and the introduction of completely new rules. Among other things, the reporting requirements and transparency obligations on the interest rate market have increased. This may cause the financial institutions acting as intermediaries in trading financial instruments to become less likely to buy securities into their own stocks. If that is to happen, it can lead to a deteriorating liquidity of these, which could have an adverse effect on the Noteholders.

Change of law

The Terms and Conditions are based on Swedish law in effect as at the date of issue of the Notes. Should any possible judicial decision or change to Swedish law or administrative practice after the date of issue of the Notes occur, there is a risk that the Noteholders are negatively affected.

European Benchmarks Regulation

Following a number of major scandals, the process of the calculation of EURIBOR, LIBOR, STIBOR and other interest rate benchmarks have been subject of the legislator's attention. This has resulted in a number of legislative measures, whereof some have been implemented and others are going to be implemented. The most important initiative on the subject matter is Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmarks Regulation**") that entered into force 1 January 2018 and which regulates the provision of a benchmark, contribution of input data for the purpose of determining a benchmark and the operation of benchmarks within the EU. Since the regulation has only been applicable for a limited period of time, the effects of the regulation cannot be fully assessed. There is, however, a risk that the Benchmarks Regulation may affect how interest rate benchmarks are calculated and developed. This in turn may give rise to increased volatility for some interest rate benchmarks. In addition, the increased administrative requirements and the associated regulatory risks may decrease the will of some parties to participate in the determination of interest rate benchmarks or to the fact that certain interest rate benchmarks will cease to be published. If this is the case for an interest rate benchmark applied to the Notes, it could have an adverse effect on the Noteholders.

Interest rate risk

The value of the Notes is dependent on several factors, one of the most significant over time being the level of market interest rates. Investments in the Notes involve a risk that the interest decreases as market interest rates decrease.

Clearing and settlement in the CSD's account-based system

The Notes will be affiliated to and will continue to be affiliated to a central securities depository of notes, currently the CSD's account-based system, and no physical notes have been or will be issued. Clearing and settlement relating to the Notes, as well as payment of interest and redemption of principal amounts, will be performed within the CSD's account-based system. The Noteholders are therefore dependent on the functionality of the CSD's account-based system.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in Swedish Kronor. This presents certain risks relating to currency conversions if a Noteholder's financial activities are denominated principally in a currency or currency unit other than Swedish Kronor (the "**Noteholder's Currency**"). Accordingly, a Noteholder is exposed to exchange rate risk if relevant exchange rates fluctuate significantly (including, but not limited to, fluctuations due to a devaluation of the Swedish Kronor or a revaluation of the Noteholder's Currency) or authorities with jurisdiction over the Noteholder's Currency impose or modify relevant exchange controls (if any).

- (iii) senior to (a) any liabilities or capital instruments of the Issuer which constitute Additional Tier 1 Capital and (b) holders of all classes of the Issuer's shares in their capacity as such holders and any other liabilities or capital instruments of the Issuer that rank or are expressed to rank junior to the Notes, in each case as regards the right to receive periodic payments on a liquidation (*likvidation*) or bankruptcy (*konkurs*) of the Issuer and the right to receive repayment of capital on a liquidation or bankruptcy of the Issuer; and
- (iv) junior to any present and future claims of (a) depositors of the Issuer, (b) any other unsubordinated creditors of the Issuer and (c) any subordinated creditors of the Issuer whose rights are expressed to rank in priority to the holders of the Notes.

Issuance, repurchase and redemption

Issue Date and Final Maturity Date

The Notes were issued on 30 October 2018. Unless previously redeemed or repurchased in accordance with the Terms and Conditions, the Issuer shall redeem all, but not some only, of the outstanding Notes in full on the Final Maturity Date with an amount per Note equal to the Nominal Amount together with accrued but unpaid Interest. If the Final Maturity Date is not a Business Day, then the redemption shall occur on the first following Business Day.

Purchase of Notes by the Issuer and related companies

Subject to applicable law and clause 9.5 (*Consent from the Swedish FSA*) of the Terms and Conditions, a Group Company, or other company forming part of the Issuer Consolidated Situation, may at any time on or following the First Call Date purchase Notes on the market or in any other way. Notes held by such company may at its discretion be retained or sold.

Early redemption at the option of the Issuer

Subject to Consent from the Swedish FSA in accordance with the Terms and Conditions, all (but not some only) outstanding Notes can be redeemed early at the option of the Issuer on (i) the First Call Date or (ii) any Interest Payment Date falling after the First Call Date.

The Issuer can exercise its option by giving not less than fifteen (15) Business Days' notice to the Noteholders and the Agent in accordance with the Terms and Conditions. The Notes shall be redeemed at a price per Note equal to the Nominal Amount together with accrued but unpaid Interest.

Early redemption upon the occurrence of a Capital Event or Tax Event

Subject to Consent from the Swedish FSA in accordance with the Terms and Conditions, all (but not some only) outstanding Notes can be redeemed early at the option of the Issuer if a Capital Event or Tax Event occurs prior to the First Call Date on any Interest Payment Date.

The Issuer can exercise its option by giving not less than fifteen (15) Business Days' notice to the Noteholders and the Agent in accordance with the Terms and Conditions. The Notes shall be redeemed at a price per Note equal to the Nominal Amount together with accrued but unpaid Interest.

Payments in respect of the Notes

Any payment or repayment under the Finance Documents, or any amount due in respect of a repurchase of any Notes, shall be made to such person who is registered as a Noteholder on the Record Date prior to an Interest Payment Date or other relevant due date, or to such other person who is registered with the CSD on such date as being entitled to receive the relevant payment, repayment or repurchase amount.

Interest and default interest

Each Note carries Interest at the Interest Rate applied to the Nominal Amount from (but excluding) the Issue Date up to (and including) the relevant Redemption Date. Interest shall be calculated on the basis of the actual number of days in the Interest Period in respect of which payment is being made divided by 360 (actual/360-days basis).

If the Issuer fails to pay any amount payable by it under the Terms and Conditions on its due date, default interest shall accrue on the overdue amount from (but excluding) the due date up to (and including) the date of actual payment at a rate which is one (1) percentage point higher than the Interest Rate. Accrued default interest shall not be capitalised. No default interest shall accrue where the failure to pay was solely attributable to the Agent or the CSD, in which case the Interest Rate shall apply instead.

European Benchmarks Regulation

The Interest payable under the Notes is calculated by reference to the benchmark STIBOR, as defined in the Terms and Conditions. This benchmark is provided by the Swedish Bankers' Association. At the date of this Prospectus, the Swedish Bankers' Association does not appear on the register of administrators and benchmarks maintained by ESMA pursuant to Article 36 of the Benchmarks Regulation. As far as the Issuer is aware, the provisions in Article 51 of the Benchmarks Regulation apply such that the Swedish Bankers' Association is not yet required to obtain authorisation or registration.

Listing of the Notes

The Issuer shall use reasonable efforts to ensure that the Notes are listed on Nasdaq Stockholm by 31 December 2018, and that it remains listed or, if such listing is not possible to obtain or maintain, listed on another Regulated Market.

The Issuer shall, following the listing, use reasonable efforts to maintain the listing as long as any Notes are outstanding, however not longer than up to and including the last day of which the listing can reasonably, pursuant to the applicable regulations of the Regulated Market and the CSD, subsist.

It is estimated that the Issuer's costs in conjunction with the admission to trading will be no higher than SEK 250,000.

The Noteholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause other Noteholders.

Information about decisions taken at a Noteholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to each person registered as a Noteholder on the date referred to above in item (a) or (b), as the case may be, and shall also be published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Noteholders' Meeting or Written Procedure shall at the request of a Noteholder be sent to it by the Issuer or the Agent, as applicable.

No direct action by Noteholders

Subject to certain exemptions set out in the Terms and Conditions, a Noteholder may not take any steps whatsoever against the Issuer to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation or bankruptcy (*konkurs*) (or its equivalent in any other jurisdiction) of the Issuer in relation to any of the obligations and liabilities of the Issuer under the Finance Documents.

The right to receive payment of interest (excluding any capitalised interest) shall be prescribed and become void three (3) years from the relevant due date for payment. Such Business Day specified pursuant to paragraph b) above must fall no earlier than one (1) Business Day after the effective date of the communication.

- 14.7 The following matters shall require the consent of Noteholders representing at least seventy-five (75) per cent. of the Adjusted Nominal Amount for which Noteholders are voting at a Noteholders' Meeting or for which Noteholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 16.2:

This includes, but is not limited to, any amendment to, or waiver of, the terms of any Finance Document that does not require a higher majority (other than an amendment permitted pursuant to Clause 17.1a) or b)).

- 14.9 Quorum at a Noteholders' Meeting or in respect of a Written Procedure only exists if a Noteholder (or Noteholders) representing at least fifty (50) per cent. of the Adjusted Nominal Amount in case of a matter pursuant to Clause 14.7, and otherwise twenty (20) per cent. of the Adjusted Nominal Amount:

For the purposes of a second Noteholders' Meeting or second

Written Procedure pursuant to this Clause 14.10, the date of request of the second Noteholders' Meeting pursuant to Clause 15.1 or second Written Procedure pursuant to Clause 16.1, as the case may be, shall be deemed to be the relevant date when the quorum did not exist. The quorum requirement in Clause 14.9 shall not apply to such second Noteholders' Meeting or Written Procedure.

- 14.11 Any decision which extends or increases the obligations of the Issuer or the Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the Agent, under the Finance Documents shall be subject to the Issuer's or the Agent's consent, as applicable.
- 14.12 A Noteholder holding more than one Note need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- 14.13 The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Noteholder for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Noteholders that consent at the relevant Noteholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.

- 14.15 All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Noteholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- 14.16 If a decision is to be taken by the Noteholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Notes owned by Group Companies or (to the knowledge of the Issuer) Affiliates, irrespective of whether such person is directly registered as owner of such Notes. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible for determining whether a Note is owned by a Group Company or an Affiliate.
- 14.17 Information about decisions taken at a Noteholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to each person registered as a Noteholder on the date referred to in Clause 14.6(a) or 14.6(b), as the case may be, and shall also be published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Noteholders' Meeting or Written Procedure shall at the request of a Noteholder be sent to it by the Issuer or the Agent, as applicable.

15. NOTEHOLDERS' MEETING

- 15.1 The Agent shall convene a Noteholders' Meeting as soon as practicable and in any event no later than ten (10) Business Days after receipt of a valid request from the Issuer or the Noteholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a notice thereof to each person who is registered as a Noteholder on the Record Date prior to the date on which the notice is sent.
- 15.2 The notice pursuant to Clause 15.1 shall include (i) time for the meeting, (ii) place for the meeting, (iii) agenda for the meeting (including each request for a decision by the Noteholders), and (iv) a form of power of attorney. Only matters that have been included in the notice may be resolved upon at the Noteholders' Meeting. Should prior notification by the Noteholders be required in order to attend the Noteholders' Meeting, such requirement shall be included in the notice.

- 15.3 The Noteholders' Meeting shall be held no earlier than ten (10) Business Days and no later than thirty (30) Business Days after the effective date of the notice.
- 15.4 Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Noteholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Noteholders to vote without attending the meeting in person.

16. WRITTEN PROCEDURE

- 16.1 The Agent shall instigate a Written Procedure as soon as practicable and in any event no later than ten (10) Business Days after receipt of valid a request from the Issuer or the Noteholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a communication to each such person who is registered as a Noteholder on the Record Date prior to the date on which the communication is sent.
- 16.2 A communication pursuant to Clause 16.1 shall include (i) each request for a decision by the Noteholders, (ii) a description of the reasons for each request, (iii) a specification of the Business Day on which a person must be registered as a Noteholder in order to be entitled to exercise voting rights, (iv) instructions and directions on where to receive a form for replying to the request (such form to include an option to vote yes or no for each request) as well as a form of power of attorney, and (v) the stipulated time period within which the Noteholder must reply to the request (such time period to last at least ten (10) Business Days and not longer than thirty (30) Business Days from the effective date of the communication pursuant to Clause 16.1). If the voting is to be made electronically, instructions for such voting shall be included in the communication.
- 16.3 When consents from Noteholders representing the requisite majority of the total Adjusted Nominal Amount pursuant to Clauses 14.7 and 14.8 have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clause 14.7 or 14.8, as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

17. AMENDMENTS AND WAIVERS

- 17.1 The Issuer and the Agent (acting on behalf of the Noteholders) may agree to amend the Finance Documents or waive any provision in a Finance Document, provided that:

 - c) such amendment or waiver has been duly approved by the Noteholders in accordance with Clause 13 (*Decisions by Noteholders*).
- 17.2 The consent of the Noteholders is not necessary to approve the particular form of any amendment to the Finance Documents. It is sufficient if such consent approves the substance of the amendment.
- 17.3 The Agent shall promptly notify the Noteholders of any amendments or waivers made in accordance with Clause 17.1, setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to the Finance Documents are published in the manner stipulated in Clause 10.4 (*Publication of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority.

- 17.4 An amendment to the Finance Documents shall take effect on the date determined by the Noteholders Meeting, in the Written Procedure or by the Agent, as the case may be.

18. APPOINTMENT AND REPLACEMENT OF THE AGENT

18.1 Appointment of the Agent

- 18.1.1 By subscribing for Notes, each initial Noteholder appoints the Agent to act as its agent in all matters relating to the Notes and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Notes held by such Noteholder, including the winding-up, dissolution, liquidation or bankruptcy (*konkurs*) (or its equivalent in any other jurisdiction) of the Issuer. By acquiring Notes, each subsequent Noteholder confirms such appointment and authorisation for the Agent to act on its behalf.
- 18.1.2 Each Noteholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is under no obligation to represent a Noteholder which does not comply with such request.

- 18.2.4 The Agent shall treat all Noteholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Noteholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 18.2.5 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.
- 18.2.6 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Noteholders, or taking any

action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate security has been provided therefore) as it may reasonably require.

- 18.2.7 The Agent shall give a notice to the Noteholders (i) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or (ii) if it refrains from acting for any reason described in Clause 18.2.6.
- 18.2.8 The Agent is entitled to engage external experts when carrying out its duties under the Finance Documents. The Issuer shall on demand by the Agent pay all costs for external experts engaged after the occurrence of a breach of the Terms and Conditions, or for the purpose of investigating or considering (i) an event or circumstance which the Agent reasonably believes is or may lead to a breach of the Terms and Conditions or (ii) a matter relating to the Issuer which the Agent reasonably believes may be detrimental to the interests of the Noteholders under the Finance Documents. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 11 (*Distribution of proceeds*).
- 18.2.9 The Agent shall, as applicable, enter into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.

18.3 Limited liability for the Agent

- 18.3.1 The Agent will not be liable to the Noteholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect loss.
- 18.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts engaged by the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Noteholders to delay the action in order to first obtain instructions from the Noteholders.
- 18.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Noteholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 18.3.4 The Agent shall have no liability to the Noteholders for damage caused by the Agent acting in accordance with instructions of the Noteholders given in accordance with Clause 13 (*Decisions by Noteholders*).

- 18.4.3 A Noteholder (or Noteholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice may only be validly given by a person who is a Noteholder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Noteholders, be given by them jointly), require that a Noteholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Noteholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Noteholders that the Agent be dismissed and a new Agent appointed.
- 18.4.4 If the Noteholders have not appointed a successor Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Noteholders, the Issuer shall appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 18.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 18.4.6 The Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent.
- 18.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Noteholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 18.4.8 In the event that there is a change of the Agent in accordance with this Clause 18.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

19. APPOINTMENT AND REPLACEMENT OF THE ISSUING AGENT

- 19.2 The Issuing Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Issuing Agent at the same time as the retiring Issuing Agent retires or is dismissed. If the Issuing Agent is Insolvent, the Issuer shall immediately appoint a new Issuing Agent which shall replace the retiring Issuing Agent as issuing agent in accordance with these Terms and Conditions.

21. NO DIRECT ACTIONS BY NOTEHOLDERS

- 21.1 A Noteholder may not take any steps whatsoever against the Issuer to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation or bankruptcy (*konkurs*) (or its equivalent in any other jurisdiction) of the Issuer in relation to any of the obligations and liabilities of the Issuer under the Finance Documents. Such steps may only be taken by the Agent.
- 21.2 Clause 21.1 shall not apply if the Agent has been instructed by the Noteholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Noteholder to provide documents in accordance with Clause 18.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 18.2.6, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 18.2.7 before a Noteholder may take any action referred to in Clause 21.1.
- 21.3 The provisions of Clause 21.1 shall not in any way limit an individual Noteholder's right to claim and enforce payments which are due by the Issuer to some but not all Noteholders.

Conflicts of interest

Other than as described below, no director or member of the senior management of the Issuer has any personal interests that could conflict with the interests of the Issuer.

As the sole ultimate owner, Ewa Glennow has the power to control all matters to be decided by vote at a shareholders' meeting and the ability to appoint the board of directors of the Issuer. Furthermore, as the owner, Ewa Glennow may also have an interest in pursuing certain events such as acquisitions, divestitures, financings or other transactions that, in her judgment, could enhance its equity investment, although such transactions might involve evident risks for the Issuer. It cannot be ruled out that certain conflicts of interest can appear in light of Ewa Glennow's position as the chief executive officer, member of the board of directors and sole indirect owner of the Issuer. In order to mitigate the risk for abuse of power and conflict of interest risks, the Issuer has adopted an internal policy framework and controls compliance with such internal policy framework and external

regulatory framework on a continuous basis. The Issuer has also implemented routines to avoid that Ewa Glennow is involved in the provision of services and/or credits to entities where there is a conflict of interest.
